Spirit 470 & 475

Easier to use. Smarter than ever.

With the Spirit 470 & 475, using a Sat Nav just got easier! The modern, lightweight design and clear Spirit QuickStart™ menu can help you find and navigate to destinations more quickly and reliably than ever.

IQ Routes™ sets new standards in routing. It uses real-life information collected from millions of drivers to optimize the route that is calculated, giving you the fastest and most efficient journey possible, wherever you are.

The Spirit 470 / 475 has been developed to give you an unbeatable navigation experience, offering 3D Junction Views for clear guidance at junctions and Mio's TruMap™ views for the clearest map display. The Spirit 470 / 475 also warns you of safety camera locations, gives instructions for the correct lane required on motorways and tells you the street name for your turn via Text-to-Speech.

Accuracy of maps is essential. With the Spirit 470 / 475 you will also benefit from Mio's Total Refresh Guarantee, which ensures you have the latest map data on your Spirit device.

Mio now offers you the choice of renting overseas maps for just a small cost. You may choose between 3, 7 and 30 days, making them ideal for short trips and holidays.

Also with the Spirit 475, you have all the great benefits mentioned above with the added bonus of receiving live traffic information, so you are always informed of traffic alerts in real-time. With Mio Spirit your journey will always be effortless.
